

REMARKS

By this Amendment, claims 1-5 and 7-12 are pending.

Claim 1 has been amended to state that a bearing is attached to each piston by a pin. This arrangement is in contrast to the roller attached to the piston disclosed in GB 2020739. In addition, claim 5 has been amended to incorporate the subject matter of claim 6, indicated as being allowable, and claim 6 has been canceled. Lastly, claim 9 has been amended to state that the cylinders have a pin and a bracket, extending outwardly from the piston, engaging the pin with a compression spring surrounding the pin and bearing against the bracket.

A three month extension of time accompanies this response. If any additional fee is due and owing, the Commissioner is authorized to charge Deposit Account 08-2455.

Respectfully submitted,

by   
Christopher J. McDonald
